August 24, 2007

Mr. Stephen D. Ricks, Vice President – CA Region
Marine Spill Response Corporation (MSRC)
2070 Commerce Avenue
Concord, CA 94520

Dear Mr. Ricks:

SUBJECT: OSRO RATING LETTER

This letter is in response to your OSRO application received on June 14, 2007. Pursuant to Title 14, California Code of Regulations, section 819, MSRC is rated to deploy the amounts and capacities of equipment in the time frames indicated on the enclosed OSRO Rating Response Matrix. Unless this rating is modified, suspended, or revoked, this rating letter shall remain valid until August 24, 2010 (14, CCR 819.06).

OSRO Ratings are based on the application, verification of actual services provided, equipment and resources available, and established subcontracts and agreements. You are required to notify the Administrator of any significant reductions in equipment or personnel levels in advance, if planned, or within 24 hours of becoming aware of such changes. When new regulatory changes, that affect your response capability, become effective during your rating period, you will be required to update your OSRO application and notify the Administrator (14, CCR 819.04(d)(3)). As a Rated OSRO, MSRC will remain subject to announced and unannounced drills and inspections throughout the term of its rating.

If you have any questions, you may contact Mr. Mark McCaleb, at telephone number (916) 324-0144 or by e-mail at mmccaleb@ospr.dfg.ca.gov.

Sincerely,

Lisa L. Curtis
Administrator
Office of Spill Prevention and Response
